

UITableViewController

```
classDiagram
    class UITableViewController
    class PackingListViewController {
        + trip
    }
    UITableViewController <|-- PackingListViewController
```

The diagram illustrates a class hierarchy. At the top is the 'UITableViewController' class, represented by a white box with a black border and three horizontal sections. The top section contains the class name. Below it is the 'PackingListViewController' class, represented by a gray box with a black border and three horizontal sections. The top section contains the class name, the middle section contains the method '+ trip', and the bottom section is empty. A blue arrow with an open triangular head points from the 'PackingListViewController' class to the 'UITableViewController' class, indicating that 'PackingListViewController' inherits from 'UITableViewController'.

PackingListViewController

+ trip
