

UITableViewController

```
classDiagram
    class UITableViewController
    class TripsViewController {
        + tripToPass
    }
    TripsViewController --|> UITableViewController
```

The diagram illustrates a class hierarchy. At the top is the 'UITableViewController' class, represented by a white box with a black border and two empty internal compartments. Below it is the 'TripsViewController' class, represented by a gray box with a black border and two internal compartments. The first compartment of 'TripsViewController' contains the text '+ tripToPass', and the second is empty. A blue arrow with an open triangular head points from the 'TripsViewController' box up to the 'UITableViewController' box, indicating that 'TripsViewController' inherits from 'UITableViewController'.

TripsViewController

+ tripToPass
