

NSObject

```
classDiagram
    class NSObject {
    }
    class BFMeasurementEvent {
    }
    NSObject <|-- BFMeasurementEvent
```

The diagram shows two class boxes. The top box is labeled 'NSObject' and has two empty rectangular compartments below the name. The bottom box is labeled 'BFMeasurementEvent' and has two shaded rectangular compartments below the name. A blue arrow with an open triangular head points from the top of the 'BFMeasurementEvent' box to the bottom of the 'NSObject' box, indicating that 'BFMeasurementEvent' inherits from 'NSObject'.

BFMeasurementEvent
