

UITableViewController

```
classDiagram
    class UITableViewController
    class WeatherReportViewController
    WeatherReportViewController --|> UITableViewController
```

The diagram illustrates a class hierarchy. At the top is the 'UITableViewController' class, represented by a white rectangle with a thin black border and two horizontal internal lines. Below it is the 'WeatherReportViewController' class, represented by a gray rectangle with a thick black border and two horizontal internal lines. A blue arrow with an open triangular head points from the 'WeatherReportViewController' class up to the 'UITableViewController' class, indicating that 'WeatherReportViewController' inherits from 'UITableViewController'.

WeatherReportViewController
