

UITableViewController

```
classDiagram
    class UITableViewController
    class TripSettingsViewController {
        + trip
    }
    TripSettingsViewController --|> UITableViewController
```

The diagram illustrates a class hierarchy. At the top is the 'UITableViewController' class, represented by a white box with a black border and two empty internal compartments. Below it is the 'TripSettingsViewController' class, represented by a gray box with a black border and two internal compartments. The first compartment of 'TripSettingsViewController' contains the text '+ trip'. A blue arrow with an open triangular head points from the top of 'TripSettingsViewController' to the bottom of 'UITableViewController', indicating that 'TripSettingsViewController' inherits from 'UITableViewController'.

TripSettingsViewController

+ trip
